

Canadian Geography ISP

This Independent Study Project (ISP) is worth 15% of your final grade.

Design and build a board game related to Canadian Geography, focusing on **one** of the five main themes of the course:

- Physical Geography
- Human Geography
- Economic Geography
- Sustainability
- Canada & the World

You can work alone or with one other person. The game must be challenging, but not impossible. It must be suitable for four or more players and playable within an hour.

Part A: The Board Game

- Research your **assigned** theme and compile a list of specific topics to ask questions about.
- Create 20 questions based on your theme, including answers.
- Create 5 questions based on each of the other themes, including answers.
- Design your game board using colour, creativity, and professional appearance throughout.
- Include a title and a logo for your game, and put them on the lid of the box.
- The game should be large enough to move players around and have special visual effects but must be no bigger than the surface of your desk.
- Type out a list of instructions for the game.
- List and provide all of the necessary equipment needed to play the game.

Part B: Advertisement

Create a one-minute TV commercial for your game board. This is a chance to show off your creative design and special features! Explain the theme of the game, how the game is played, and include several sample questions. Your objective is to get people interested in your product so that they might buy it!

Evaluation

Game Name & Logo	1	2	3	4	5	6	7	8	9	10
First Impressions	2	4	6	8	10	12	14	16	18	20
The Game Itself ²	4	6	8	10	12	14	16	18	20	
Geography Content	2	4	6	8	10	12	14	16	18	20
Review for Exam	2	4	6	8	10	12	14	16	18	20
Fun Rating	1	2	3	4	5	6	7	8	9	10
