

Canadian Geography ISP

This Independent Study Project (ISP) is worth 15% of your final grade.

Design and build a board game related to Canadian Geography, focusing on the five main themes of the course:

- Physical Geography
- Human Geography
- Economic Geography
- Sustainability
- Canada & the World

You can work with ONE other person. The game must be challenging, but not impossible. It must be suitable for four or more players and playable within an hour.

Checklist

- Research the themes and compile a list of specific topics to ask questions about.
- Create 25 questions (5 from each theme of the course), including answers.
- Create a theme and design your game board, using colour, creativity, and professional appearance throughout.
- Include a title and a logo for your game, and put them on the lid of the box.
- The game should be large enough to move players around and have special visual effects but must be no bigger than the surface of your desk.
- Type out a list of instructions for the game.
- List and provide all of the necessary equipment needed to play the game.
