

Central Lake Ontario Conservation Authority

Conservation Authorities, created in 1946 by an Act of the Provincial Legislature, are mandated to ensure the conservation, restoration and responsible management of Ontario's water, land and natural habitats through programs that balance human, environmental and economic needs.

Objectives

- to ensure that Ontario's rivers, lakes and streams are properly safeguarded, managed and restored;
- to protect, manage and restore Ontario's woodlands, wetlands and natural habitat;
- to develop and maintain programs that will protect life and property from natural hazards such as flooding and erosion;
- to provide opportunities for the public to enjoy, learn from and respect Ontario's natural environment.

The Central Lake Ontario Conservation Authority (CLOCA) was established in 1958. Our mandate is to establish and undertake programs to promote the conservation, restoration, development and management of natural resources in partnership with local Municipalities and the Province. Our partners include: Region of Durham, Cities of Oshawa and Pickering, Towns of Ajax and Whitby, Municipality of Clarington, Townships of Scugog and Uxbridge.
