

THE DAY AFTER TOMORROW

1. Why do scientists do research in Antarctica so much?
2. What is the movie's theory about global warming causing an ice age?
3. Why will the Kyoto Accord on reducing greenhouse gas emissions cost the world's economy "hundreds of millions of dollars"?
4. What alarm goes off in the climate research centre in Scotland?
5. What happens in Tokyo?
6. Who does the character played by Dennis Quaid (Jack Hall) work for?
7. What do the astronauts see from the space centre?
8. Why are the animals in New York City going all wild when people notice nothing?
9. Los Angeles is having a few difficulties.... what's happening there?
10. In the NOAA war room, Jack Hall explains his hypothesis of the cause of all these extreme weather events.... what's the theory?
11. What is the timeline for the onslaught of this extreme climate shift?
12. What happened to the woolly mammoth in Siberia many years ago?
13. What's happening to the temperature in Scotland?
14. What happens in Nova Scotia and other parts of Canada?
15. What comes over the Statue of Liberty towards Manhattan?
16. What does the new data model project will happen?
17. What does Jack Hall recommend to the President of the United States?
18. What does Jack Hall himself end up doing? How far is it from Philly to New York?!
19. What device does Jack use to navigate his way to New York?
20. A disaster of this magnitude brings you back to the basics.... make a list of what would be in your survival pack. Then, agree on just 10 things for your pack with a partner. Finally, gather with another pair of people and agree on just 10 things for your pack.
